

PROGRAM UPDATE!

OLD BRIDGE COMMUNITY ENERGY AGGREGATION

FEBRUARY 16, 2016 – OBCEA PROGRAM

As described in detail below, the Township of Old Bridge established the Old Bridge Community Energy Aggregation (OBCEA) program, and awarded a contract to South Jersey Energy Company (SJE) for the provision of power supply to Township residents at a price of \$.08615 per kilowatt-hour. This rate is approximately 15% lower than the average JCP&L tariff price for power supply! Residents who do not currently have a third party supply contract or do not have a rooftop solar power system were included in the initial program eligibility pool. Those residents received a mailer from SJE in early January 2016, describing the program and providing instructions on how to 'opt-out' of the program if they did not wish to participate in the program.

The initial opt-out period for the OBCEA Program has now been completed. Those residents who received the program notification last month, and did not opt-out of the program, will be enrolled by the program supplier, South Jersey Energy, for service beginning with your March 2016 meter read date. If you did not opt-out of the program, you should have received a letter from JCP&L in mid-February 2016 confirming the enrollment of your account with South Jersey Energy. This letter is merely a confirmation, and there is no further action that you need to do in order to participate in the OBCEA Program and to begin enjoying the estimated 15% savings on the power supply portion of your bill. You would only need to respond to the JCP&L letter you do not wish to participate in the OBCEA program.

*Please be advised that it has come to the Township's attention that in their recent letter to Township residents JCP&L has provided an out-of-date customer service number for South Jersey Energy. If you tried to call South Jersey Energy via the phone number provided by JCP&L in its recent letter you likely encountered problems. **The correct phone number for residents to reach South Jersey Energy is 1-(888) 812-1826.***

Any residents that have questions about the program can call this number, or if you not received any of the mailers but wish to participate in the OBCEA program can join by simply calling South Jersey Energy at 1-(888) 812-1826.
